Commercial and Money Matters.

TUESDAY, P. M. There was a large amount of business done at the Stock Board to-day, and there was a very buoyant feeling prevailing. Almost every description improved. Del. & Hudson went up 12; Mechanics Banking Association 2; Utica and Schenectady Railroad 2; Harlem 2; Long Island 2; New Jersey 1; Mohawk 24; Paterson 2; Canton 4. Mohawk cash dock is very scarce.

Mobile exchange is a shade worse to-day, but the variations generally are not material. We quote-Philadelphiapar a i Montgomery23 a-

There was an improved demand for Treasury notes, but the rate did not improve. We quote I a 14 per cent.

There is a much better feeling in Wall street to-day, and paper has been in good demand at lower rates than prevailed last week. Some of the banks are in want of good paper, and all that class money is easily obtained. Altogether there is much cheerfulness and hope among monied men, and better times are looked for as immediately at hand, The City Bank has declared a dividend of four per cent for the last six months.

It appears from a partial examination made by the Rhode Island Bank Commissioners into the affairs of the Pascoag Bank, that the public cannot lose by this institution. Its circulation is only \$11,900, for which the private property of the stockholders is held.

The Savannah Republican of the 11th inst says:- "We learn from a gentleman who arrived in the cars last evening, that the Governor has issued his seize fucius against the Hawkensville Bank, so that this institution will be at last compelled to go into liquidation." Bicknell's t biladelphia Reporter says:-

We notice with pleasure an improvement in our money market. The periods for the largest payments of the Spring have gone by, with much less difficulty that was at first apprehended. The failures have been lew and far between.—Our banks have more specie and specie funds on hand at the present time, than they had the day the resumption was attempted. The banks are discounting, but with moderation. None of the suspended banks have yet re-opened.—We hear, however, that the Mechanics and Moyamensing, are both making vicorous efforts to such an end.

We believe that some of our American merchants are interested in the following notice, which we find in the London Sun of March 28 :-

The New Orleans Bulletin of the 9th says :- "The period

is near at hand, when the stockholders of those banks whose directors have accepted, provisionally, the "relief" law, and its supplement, must finally confirm or reject the acceptance. It is generally believed that the acceptance will be endered complete, by the stockholders."
